

DAMAGE RATE TABLE

The damage definition and quantification has been done according to the following criteria:

- **Car Body:** damages are quantified and updated according to "Wincar", a system commonly acknowledged by the leading insurance companies, and based on the car manufacturers rate tables;
- **Crystals:** damages are quantified and updated according to the price tables of the car manufacturers;
- **Tyres:** damages are quantified and updated according to the price tables of tyre manufacturers.

All the amounts shown below are inclusive of labor, works and accessory materials necessary for the restoration, as well as the waste disposal. They also include the technical stop, calculated on the basis of the days required to repair the car (including eventual ordering time of spare parts) calculated on the basis of the standard daily rental rate. The evaluation of mechanical damage, multiple damage and damage not detailed in this table, is done case by case by the Lessor after examining the damaged car and according to the type of damage; this evaluation also takes into account labor costs, works and accessory materials required to repair the car, as well as the waste disposal. It also includes the technical stop, calculated on the basis of the days needed to repair the car (including eventual ordering time of spare parts) calculated on the basis of the standard daily rental rate. The damage evaluation of the car body is done through a tool called **Misuratore Locauto Rent a car**, consisting of a plastic card sized 10x5 cm. Damages are classified according to the table below. Once the damage has been determined, according to the above criteria, the Lessor has the sole discretion to determine when to perform the repair. Damages to vehicles from Group K will be evaluated and estimated by a qualified professional staff.

NON CHARGEABLE SCRATCH

Consists in a single scratch, less than 5 cm, detected on the car body, except of roof, crystals, mirrors, lights, glasses, rims and tyres.

SLIGHT SCRATCH

Consists in a single scratch longer more than 5 cm and less than 10, or a single scratched area whose extent doesn't exceed the surface of the Misuratore Locauto Rent a car (10x5 cm). A single scratched happened on the following parts of the car: roof, crystals, mirrors, lights, undercarriage, glasses, rims and tyres, even if longer less than 5 cm, is considered "slight", so it is chargeable.

SEVERE SCRATCH

Consists in a single scratch longer than 10 cm, or a single scratched area whose extent exceeds the surface of the Misuratore Locauto Rent a car.

SLIGHT DENT

Consists in a single dent whose extent doesn't exceed the surface of the Misuratore Locauto Rent a car.

SEVERE DENT

Consists in a single dent, or a group of dents, whose extent exceeds the surface of the Misuratore Locauto Rent a car, but doesn't exceed a unique surface sized 40x40 cm.

REPLACEMENT/BREAKAGE/MISSING PART

Consists in a damage which requires the replacement of a part of the vehicle, because missing, broken or compromised; this category includes also single or multiple dents larger than 40x40 cm.

REMARK The below amounts don't include VAT

Last update: March 26th, 2024

LEGEND

NC = Not Chargeable (indicates that the damage is neither reported nor charged to the customer)

NQ = Not Quantifiable (indicates that the damage is not immediately quantifiable at the time of detection)

NP = Not Present (indicates that the part of vehicle is not present on the specific model)
